Professional Summary

Aspiring Computer Science Engineer with a robust foundation in Artificial Intelligence, Machine Learning, Web Development and Automation. Passionate about building innovative, data-driven solutions to solve real-world problems. Proven track record of developing responsive web applications and predictive models, with a continuous drive to master emerging technologies like Prompt Engineering and Cloud Infrastructure.

Education

- 2023–2026 **Bachelor of Technology (B.Tech)**, Raja Balwant Singh Engineering Technical Campus, Agra
Pursuing Computer Science Engineering. Focused on AI/ML algorithms and software development.
- 2021–2023 **Bachelor of Science (B.Sc)**, Sri Harcharan Lal Verma Mahavidhyalaya, Agra Graduated with a focus on core scientific principles.
- 2016–2018 **Intermediate Education**, NC Educational Academy, Agra Focused on Science and Mathematics.

Technical Skills

Languages	Python, C, C++, SQL
Web Dev	HTML5, CSS3, Django, React
AI, ML& Automation	Machine Learning, Data Visualization, Prompt Engineering, Predictive Modeling, n8n Workflow Automation
Tools	VS Code, PyCharm, Git, Windows, Linux, Streamlit, Vercel, N8N
Cloud	Oracle Cloud Infrastructure (Basics)

Experience

- Jun 2025–Jul 2025 **AI & ML Intern**, NIELIT, Online
Completed an intensive internship focused on AI/ML using Python. Gained hands-on experience in data preprocessing, model training, and algorithmic problem-solving.
- May 2025 **Intern**, AI Academia, Hybrid
Participated in a comprehensive Artificial Intelligence Workshop. Collaborated on projects involving basic neural network concepts and AI ethics.

Projects

- 2026 **YouTube Automation Engine**, n8n & Python Integration
Developed a low-code automation workflow using n8n to streamline the YouTube content pipeline. Features include automated video processing, AI-generated metadata (titles/tags), and scheduled uploads via YouTube API.

- 2025 **Universal Analyst Model (UAM) v2**, Full Stack AI Platform
Comprehensive data analytics platform providing automated EDA, interactive charts, and model generation. Hosted on Vercel.
Live Link: <https://uam-project-v1-0.vercel.app/>

- 2025 **ChatBot FusionHub, AI Integration Platform**
Web-based AI integration platform using Django for the backend to provide real-time conversational responses.
- 2024 **Personal Portfolio, Web Development**
Developed a fully responsive interactive portfolio using HTML, CSS, and JavaScript to showcase technical skills.

Certifications

- Oracle Cloud Infrastructure 2025 AI Foundations Associate
- ChatGPT Prompt Engineering - DeepLearning.AI
- Python Zero to Hero Course - Guvi
- Artificial Intelligence Workshop - AI Academia
